Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Discussed proposed amendments to claim 1, specifically, the concept of a first and second symbol being associated with a single outcome such that varying the theme of a game does not change the payout probabilities associated with said game. The examiner does not agree that this is not an obvious variation of the invention disclosed by Dickinson. Applicant expressed intent to file amendments to the claims, which the examiner will consider upon receipt. No agreement with respect to the claims was reached..
